1. Summary

DS Solution is an integrated management program of DS TECH products such as DS Component, DS Revision, and DS Check. This document is a manual on how to use DS Solution, a license management program for DS TECH products. Before using DS Solution, DS Component must be installed separately.

2. DS Solution program install

2.1 How to install

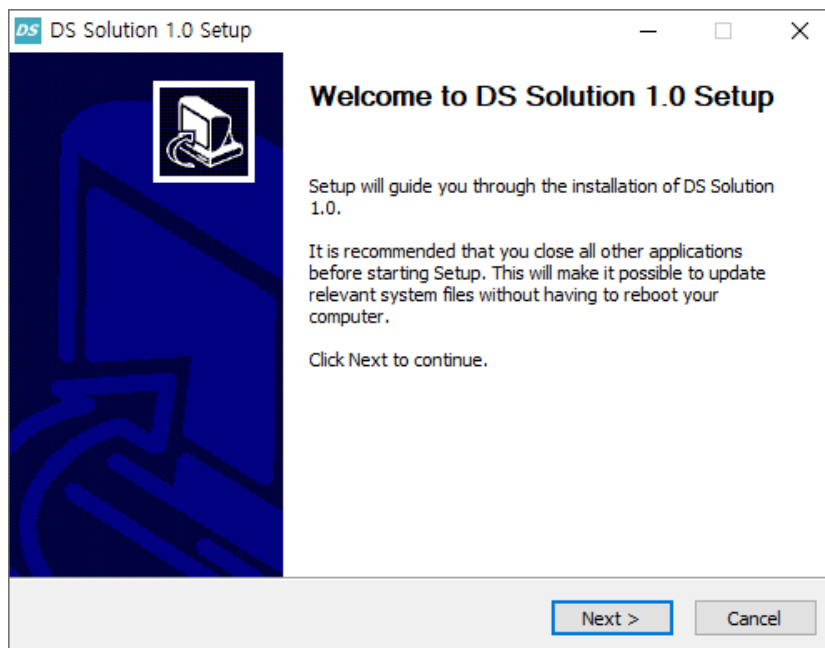

- 1) Run the installation file

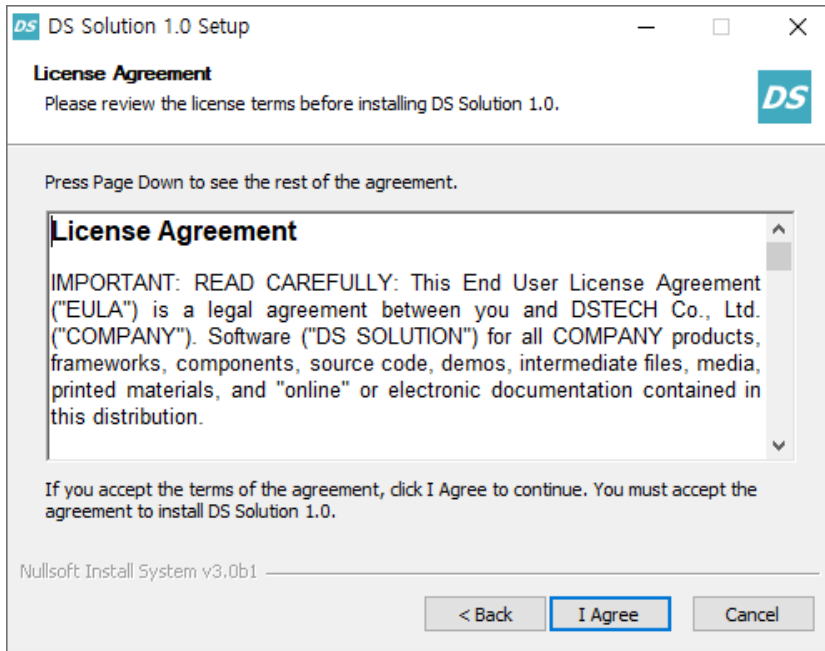

Run 'DS Solution setup.exe'

- 2) Installation progress

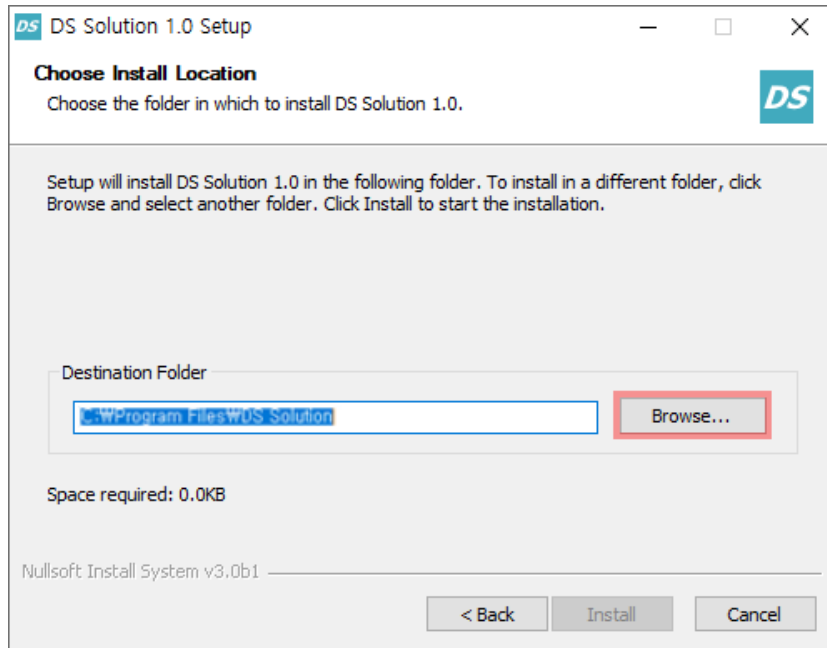

Installation proceeds with the following process.

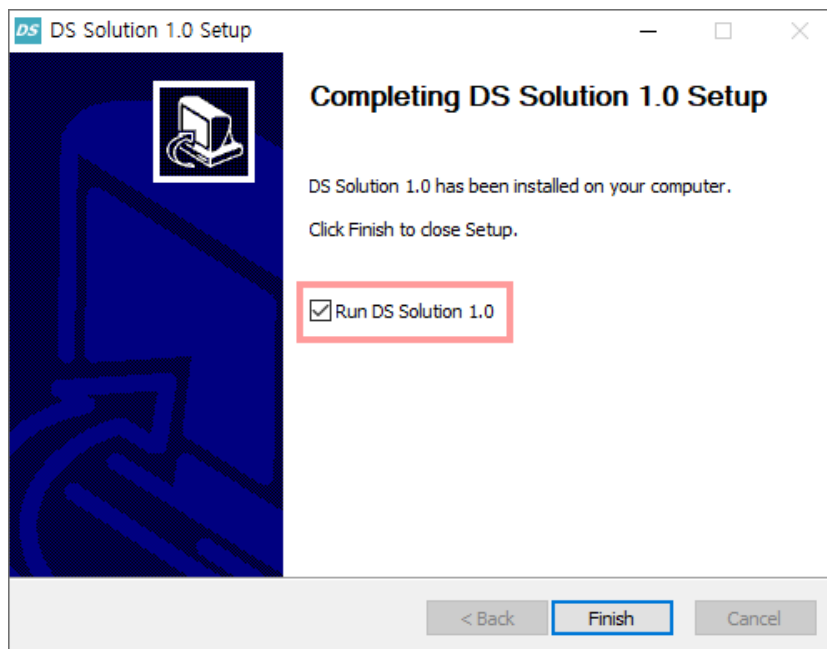

3) Install path setting

Default path is 'C:\Program Files\DS Solution'.

4) Installation completed

When DS Solution file installation is completed, the executable file (shortcut) is automatically installed on the Desktop. User can select whether to run the program at the same time as the install finish.

3. DS Solution program use

3.1 Sign-up

Click Create account

The screenshot shows a window titled "Login" with a close button (X) in the top right corner. It contains two input fields: "Email" with a person icon and "Password" with a lock icon. Below the fields are a "Remember Me" checkbox and a link "i forgot my ID, password". A large blue "Log In" button is centered below the fields. A red box highlights the "Create account" link in the bottom right corner.

Select User or Admin for sign-up

The screenshot shows a small dialog box with a close button (X) in the top right corner. It contains two blue buttons: "User" and "Admin".

1) User sign-up

3-2. How to use

DS Component must be installed before using DS Solution, and Tekla Structures must be running either to use it.

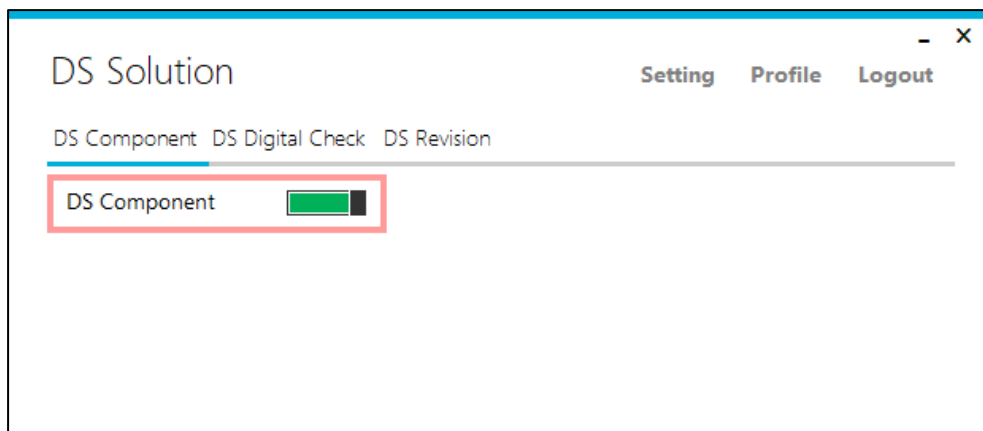

1) User

How to use DS Component

Click the toggle button in the DS Component tab.

You can turn on and off DS Component with the toggle button, and green light is the status of 'ON'.

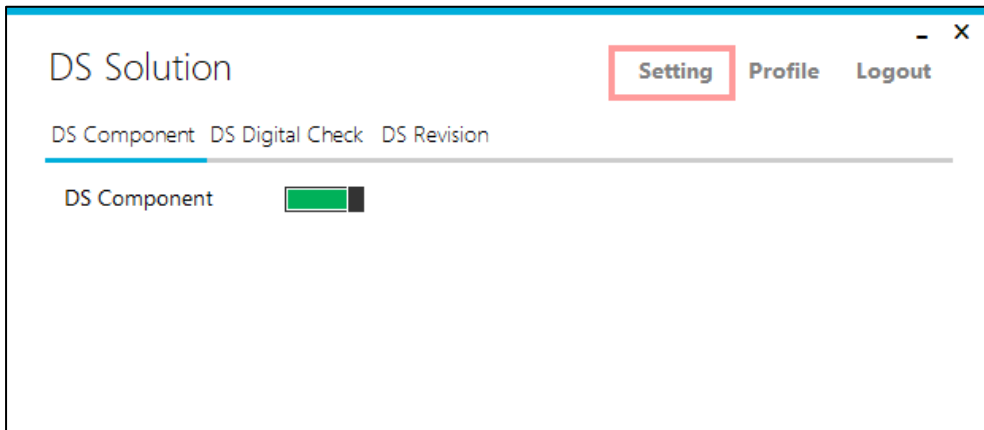

You need administrator's permission to use it.

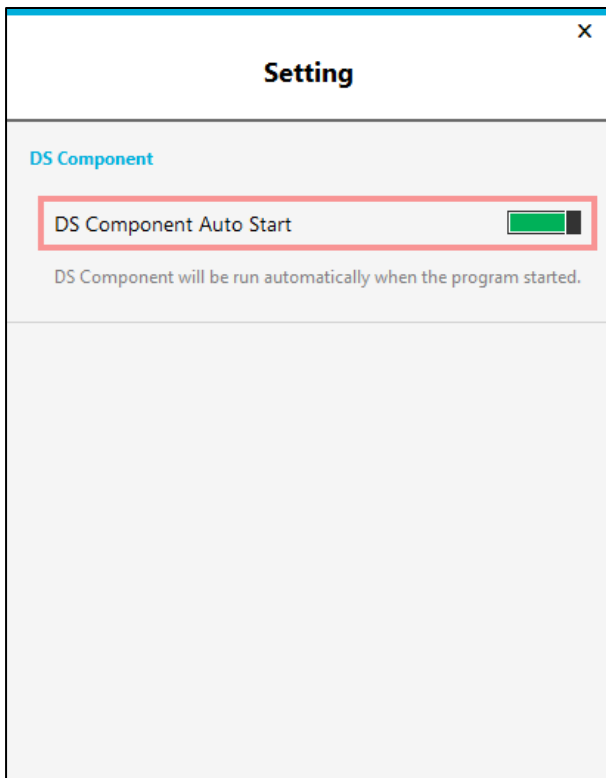

If you turn on DS Solution without license permission, the warning message will appear.

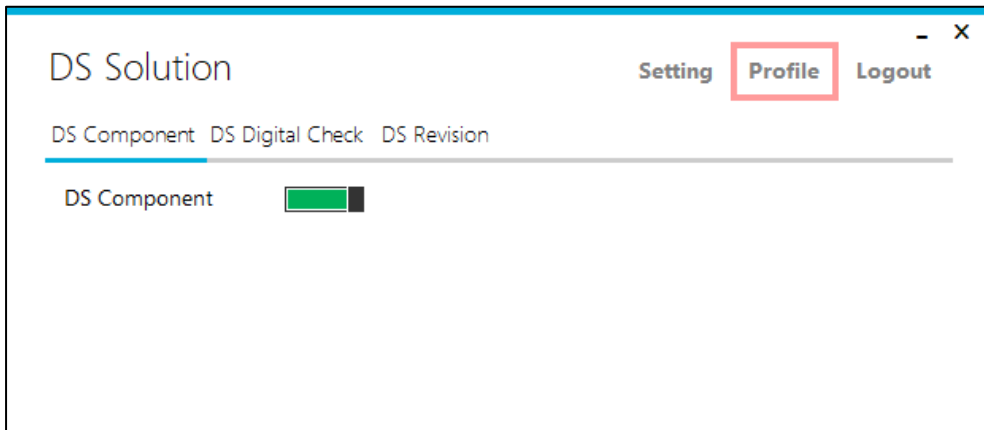

2) Setting

You can set DS Component Auto Start in Setting

3) Profile

You can edit your information and deactivate account in Profile.

The screenshot shows a 'Change Information' form window. The title 'Change Information' is centered at the top. The form contains several input fields and buttons:

- Name**: A text input field.
- ID**: A text input field.
- Password**: A text input field with a 'Change Password' button next to it.
- Company Code**: A text input field.
- Company Number**: A text input field.
- Phone Number**: A text input field.

At the bottom of the form, there are two buttons: 'Deactivate Account' (a light gray button) and 'Modify' (a blue button).

4) Admin

The basic usage is same as common users, and the administrator plays the role of license usage rights, device management, and user management.

[Please refer to the admin guide for the administrator mode]
